

Ohio's Top 50 ESOP Companies

Editor's Note: The information shown below is based on public information—Form 5500 pension reports to the IRS for plan years ending 1999-2001, as compiled by Larkspur Data Resources on its 2003 Pension Master CD. The data are a snapshot of Ohio companies at just one point in time. Some companies may have been merged, sold or closed since their plan was reported. Other companies may have since transformed the ESOP or stock bonus plan into some other kind of pension plan.

By Value/Participant*
